Item 2 - Educational Background and Business Experience

Year of Birth: 1952

Education:

Name of School	Year Graduated	Degree	Major
Arizona State University	1974	BS	Accounting
Covenant Theological Seminary M. Div	1984	M. Div	Theology

Professional Designations:

- Certified Public Accountant (CPA) – 1975

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two year period or 120 hours over a three year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members⁵ are required to follow a rigorous *Code of Professional Conduct* which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain Client consent if a conflict exists), maintain Client confidentiality, disclose to the Client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's *Code of Professional Conduct* within their state accountancy laws or have created their own.

- Personal Financial Specialist (PFS) – 1995

The PFS credential demonstrates that an individual has met the minimum education, experience and testing required of a CPA in addition to a minimum level of expertise in personal financial planning. To attain the PFS credential, a candidate must hold an unrevoked CPA license, fulfill 3,000 hours of personal financial planning business experience, complete 80 hours of personal financial planning CPE credits, pass a comprehensive financial planning exam and be an active member of the AICPA. A PFS credential holder is required to adhere to AICPA's *Code of Professional Conduct*, and is encouraged to follow AICPA's *Statement on Responsibilities in Financial Planning Practice*. To maintain their PFS credential, the recipient must complete 60 hours of financial planning CPE credits every three years. The PFS credential is administered through the [AICPA](#).

⁵ This description represents the requirements as of 1/1/2011. It is the responsibility of the adviser to disclose the qualifications in place when he or she attained the credential.

Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board’s studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor’s Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board’s financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;

Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;

Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and

Ethics – Agree to be bound by CFP Board’s Standards of Professional Conduct, a set of documents

outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the Code of Ethics and other parts of the Standards of Professional Conduct, to maintain competence and keep up with developments in the financial planning field; and

Ethics – Renew an agreement to be bound by the Standards of Professional Conduct. The Standards prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.
